

## GEAR TECHNOLOGY BYPASS PRUNER

- Multiplies leverage 3X
- High carbon steel blade
- Low friction-coated blades
- Composite handles
- Rubber overmolded grip
- Max. cut capacity: 5/8 in.

Part #: HP-43

## ADJUSTABLE GRIP BYPASS PRUNER

- High carbon steel blade
- Low friction-coated blades
- Composite handles
- Rubber overmolded grip
- Max. cut capacity: 1/2 in. or 1 in.

Part #: HP-44

## PRO SERIES BYPASS PRUNER

- Aluminum die-cast handles
- High carbon steel blade
- Low friction-coated blades
- Max. cut capacity: 1 in.
- Replaceable blades (Part #: 91231)

Part #: HP-62

## ANVIL LOPPER

- High carbon-content steel blades sharpened and precision-ground
- Low friction-coated blades provide smooth cuts
- Gear technology reduces cutting effort
- Heavy-duty aluminum alloy handles
- Weight: 2.8 lbs.
- Length: 32.5 in.
- Max. cut capacity: 2.25 in.

Part #: HA-2710

## BYPASS LOPPER

- High carbon-content steel blades, sharpened and precision-ground
- Low friction-coated blades provide smooth cuts
- Gear technology reduces cutting effort
- Heavy-duty aluminum alloy handles
- Weight: 2.6 lbs.
- Length: 32.5 in.
- Max. Cut Capacity: 2.25 in.

Part #: HA-2720

## HEDGE SHEAR

- High carbon-content steel blades, sharpened and precision-ground
- Low friction-coated blades provide smooth cuts
- Gear technology reduces cutting efforts
- Heavy-duty aluminum alloy handles
- Weight: 2.3 lbs.
- Overall Length: 26 in.
- Blade Length: 8 in.
- Max. cut capacity: .375 in.

Part #: HA-2910

## SPLITTING WEDGE

- Sharpened and ready for use
- Tapered cutting edge for efficient splitting
- Striking face is intended for driving splitting wedge
- Forged head weight 5 lbs.

Part #: HA-1005

## HATCHET

- High carbon content steel with hardened and tempered cutting edge
- Ergonomic fawn foot, low moisture hickory handle for maximum strength and durability
- Factory sharpened cutting edge
- Head weight: 2 lbs.
- Handle length: 14 in.

Part #: HA-1142

## LIMBING AXE

- High carbon content steel with hardened and tempered cutting edge
- Ergonomic fawn foot, low moisture hickory handle for maximum strength and durability
- Factory sharpened cutting edge
- Head weight: 2.25 lbs.
- Handle length: 28 in.

Part #: HA-1282

## FELLING AXE

- High carbon content steel with hardened and tempered cutting edge
- Ergonomic fawn foot, low moisture hickory handle for maximum strength and durability
- Factory sharpened cutting edge
- Head weight: 3.5 lbs.
- Handle Length: 36 in.

Part #: HA-1363

## SPLITTING MAUL

- Head weight and width is ideally suited for splitting wood
- Low moisture hickory handle for maximum durability and strength
- Head weight: 6 lbs.
- Handle Length: 36 in.

Part #: HA-1366
